

THE JANESEVILLE GAZETTE.

JANESEVILLE, WISCONSIN, MONDAY, MAY 18, 1891.

NUMBER 62.

VOLUME XXXV.

FOR A FEW DAYS

We will sell you a choice of twenty-five

LONG CLOTH ULSTERS!

(suitable for traveling) at the ridiculous figure of

\$1 EACH.

TWENTY-FIVE

Cloth " Jackets!"

AT THE SAME PRICE, \$1.

Our object is to close these two lines and the price does not represent even the cost of making, to say nothing of material.

In connection we will make special reductions on our entire line of

JACKETS, WRAPS, AND CAPES

and all garments for outside wear and of which we show an elegant line.

ARCHIE REID.

Leading and Largest Line of MILLINERY.

SPOON & SNYDER,

This week offer over 100 different styles in

Box Paper,

At prices ranging from 8c up.

The Finest Line of School Tablets in the City.

Look out for our announcement of third

Special . Ribbon . Sale !

in a few days. In the mean time just step in and look over our large line of

STAMPED GOODS, ART LINENS, SCRIMS,

Bargarren Goods, etc.

SPOON & SNYDER.

61 West Milwaukee Street.

New Mail !

THE
BEST
WHEEL
IN
THE
MARKET,
RANGING
IN PRICE
FROM
\$18
TO
\$25.
A FULL LINE IN STOCK.

Refrigerators, .Lawn .Mowers,

Screen Doors and Windows, Barbed Wire, and a full line of Staple Hardware.

A full line Lawn Hose and Trucks at low prices.

JOHN HUNTRESS has charge of our Tin Shop. Call and see us.

F. M. FINCH,

13 North Main Street, Janesville, Wis.

Insurance and Real Estate!

At the Insurance and Real Estate office, Room 10, second floor in the Jackman block, is represented the old, strong,

Leading Insurance Companies!

of America and Europe. They can be truthfully be said to be TIME TRIED AND FIRE TESTED.

STEAM, BOILER AND TORNADO INSURANCE

a Specialty. Thankful for past favors and soliciting a continuance of the same, I am, very respectfully,

SILAS HAYNER, Agent.

Lace Curtains !

AT

BORT, BAILEY & CO'S.

Having placed on sale an exceedingly fine line of Lace Curtains, we call your attention to some of the choice patterns we are offering. Our latest arrival of Curtains 180 pair, ranging in price from \$1.25 to \$20 per pair. We have bought these curtains cheap and are willing to sell them at a close margin. If you want Lace Curtains

WE CAN PLEASE YOU
Odd Curtains and Odd Pairs at Half Price.

WE HAVE ON HAND A GOOD
many Single Curtains and Single
pairs that we will sell at just HALF PRICE.
We want to close them out. Can you use
them?

BORT, BAILEY & CO.,

Agents for Butterick's Patterns, Clean-Fast Hosiery, and
Priestley's Black Goods.

COOLNESS
IN THE FAMILY, WILL SOON BE A GOOD THING TO HAVE, WHEN
CAUSED BY THE

NEW PROCESS GURNEY REFRIGERATOR !

ENTIRELY NEW--NOTHING LIKE IT.

Wherever seen and used is the people's favorite. A New Challenge Refrigerator at Cost to close them out.

The New Success is Latest in Gasoline Stoves.

Lawn Hose and Reels, Ice Cream Freezers.

The oldest and best Tin and Iron Shop in the city. In
prices we meet all legitimate competition.

GRISWOLD & SANBORN,

28 South Main Street.

SEWERS ARE COMING.

Until further notice we will sell vitrified Sewer Pipe
such as now used by the city as follows

3-inch pipe.....	4 cents per foot.
4-inch pipe.....	5 cents per foot.
6-inch pipe.....	7½ cents per foot.
8-inch pipe.....	11 cents per foot.

10-inch pipe.....16½ cents per foot.

12-inch pipe.....20½ cents per foot.

16-inch pipe.....35 cents per foot.

18-inch pipe.....43½ cents per foot.

Sewer Pipe Fittings Also at Cost.

Gas Stoves

AT COST.

And will be set up
free of charge,
when not to exceed
thirty feet of pipe is
required.

H. E. MERRILL,
6 North Main St.
Gas Burners FREE of cost.

\$50 LOTS, \$10 DOWN, \$1 WEEKLY

By buying just such lots 25 or 30 years ago the merchant princes of Chicago laid the foundation of their fortunes.

We have just opened our new subdivision, called THE ORIGINAL TOWN OF GRIFFITH, and have fixed the prices of lots so that you can buy lots 25 x 12½' for \$100 each, also lots 30 x 12½' for \$125 each, and lots 35 x 12½' for \$150 each per month. Don't miss this only opportunity.

Can you save \$1 per week? Dollars will grow into lots, and lots will grow into fortunes. Begin by buying a lot in Griffith, the coming great manufacturing suburb of Chicago.

NOTE ITS ADVANTAGES.

Three Eastern Trunk Railways. Higher Elevation than Harvey. The Outer Belt Railway. Nearer than Waukegan. The Standard Oil Pipe Line. It is the Coming Point. Lots Guaranteed to be High and Dry, or Money Refunded.

See what the Chicago dailies and real estate papers say of Griffith. Send for plats and extracts from the papers. We gladly mail them free. Write quickly. Don't be too late. Get plats.

Jay Dwiggins & Co.

CHICAGO REAL ESTATE INVESTORS.

409 Chamber of Commerce Building, - - - Chicago, Ill.

No plowing. No grubbing. Simply harvesting and that without labor. Where are these woods? Read a little further and learn.

RWARD TO ANY PERSON who can show that they did not make 10 per cent, in one year on Chicago real estate bought from me. Buy my lots located right in the center of the great city of Chicago. On the South side, West side, North side, and the West side of the river. All of which will sell out at \$200 below market price in the next few weeks. Lot from \$37.50 and upwards. Reap the Golden Harvest. The World's Fair will do the advertising.

ADOLPH J. SABATH, 77-79 S. Clark St. Chicago, Ill.

All letters promptly answered.

You Don't Need

To go to some city far off to invest for profit in real estate. You can't help making money faster, surer and more of it on same amount invested right here at home, provided you invest under the advice of those skilled in the art. Yours very truly,

GEO. L. & SARAH H. CARRINGTON.

ARE MAKING A BLUFF

Interview Between Captains of Esmeraldo and Charleston.

THE LATTER SAYS HE'S READY TO FIGHT
The Itata Can't Be Taken Until His Ship Is Sunk--The Charleston's Commander Declares He Will Capture the Fugitive.

ACAPULCO, Mex., May 18.—The Charleston started south Sunday night. The Esmeraldo is not yet coaled. The pursuit of the Itata has not yet been abandoned. The original orders from the navy department to capture the Chilian insurgent and return it to San Diego to be placed in the same position it was prior to its escape will be carried out. Nothing has been heard of the Itata. The Charleston's officers evidently expect the Itata will not run into Acapulco. What the Charleston now intends doing will depend on Capt. Remy's orders. It is not improbable that he will continue straight on for Chili, stopping for coal at Panama, in order to join the other ships of our navy at Iquique. As the Itata must turn up there eventually, perhaps that will be the surest way to catch her.

SAFETY, May 18.—A telegram from an officer on the Charleston at Acapulco says that the Itata had not been seen or heard from. When the

large gale blew up on Saturday night, the Itata had reached the southern district of the city, where there was more space between the houses and the firemen succeeded in controlling the flames.

1890-Powder explosion in Havana, Cuba; killed 30 persons and injured over 100.

A TRAP FOR REPUBLICAN FARMERS.

It is probable that many Rock county farmers have not yet seen the clever little digest of the political situation that is going the rounds of the democratic papers. It reads as a very matter of fact Washington dispatch, but clearly contains between the lines a hint to the democrats everywhere to foster the Farmers Alliance movement in every locality as far as possible, as the necessary means of electing the next democratic national ticket. It is the old scheme which the democrats have so often worked, with the prohibitionists, the green-backers and other third party supporters acting as an auxiliary to the democratic party. The article is very cleverly gotten up. It says: "The candidacy of a farmer nominee means that the republicans are to lose four states which they have always carried for president, to wit: Iowa, Kansas, Wisconsin and Minnesota, with Michigan, Nebraska, North and South Dakota debatable grounds." Further on it says: "The Alliance-Labor movement will not deprive the democrats of one electoral vote. Georgia, Alabama, Mississippi, Texas, Arkansas, Missouri, and all other democratic states in which the Alliance has a strong foothold, and safe enough for the democratic ticket."

The object of this broad hint to the democrats of the county is apparent. It is a signal to the workers to play the Alliance movement for all it is worth everywhere and anywhere, for the reason that in the south and democratic states the Alliance is solidly democratic and will vote the democratic ticket anyhow, while in republican states the republican wing of the Alliance can be led into voting for a third party candidate, thus throwing the plurality to the democratic candidate. It is a fine trap, and the farmers of the north are expected to fall into. Democrats know that a democrat is always a democrat; but that a republican entering a third party movement does it honestly and conscientiously and upon convictions that he carries with him the ballot box. The question therefore is, whether the republican farmers of the north are to allow themselves to be hoodwinked by this southern democratic scheme.

In commenting on the Dodge law, The Columbia, Milwaukee's leading German Catholic organ, says: "It is unjust because it infringes on the right of the testator to do with his property after his death as he pleases and sees fit, and it does that in such a manner that no one can be certain that his bequests will be put to the use he intends. It is very easy to say to make one's last will 'in time.' When is that 'in time'? A person may be today in full possession of his mental and physical faculties, and as such he makes his last will. Tomorrow he is stricken with apoplexy and soon after dead. All his bequests for religious and charitable purposes are rendered void through this law, because the required three months have not passed, though these bequests were made by a perfectly sane and rational person."

If southern Alliance democrat can remain a democrat and exert the influence of his order within his own party, why should not a northern Alliance republican remain a republican and exert the influence of his order within his own party? The democratic plan, outlined in another article, is to simply encourage the Alliance of the north to help defeat the republican party and get left out in the cold in the minority without a standing in any party.

A census bulletin on tobacco shows that Wisconsin produced 19,386,149 lbs. of tobacco in 1889—nearly double the quantity grown in the state in 1879. This is from the United States' officers. The assessors getting statistics for that year under the State law did not find as much tobacco by 4,000,000 pounds.

Senator Vilas is said to want Colonel Knight for governor and John L. Mitchell for secretary. His friends intimated as much after his Milwaukee visit, but whether they were thanked for it in view of the reaction it has made among other aspiring democrats, is not stated.

There is still hope for the peach crop. At least, Maryland hangs out its banner on the outer walls and proclaims that in Kent and Queen Anne counties the peach trees are all right, the fruit being too far advanced to be injured by the recent cold snap.

Appleton Crescent: It is all stuff that the state board of control is to have control of the Veterans' home near Waupaca. The legislature Woodworth has it so.

If always to court and never to wed is the height of felicity, then that couple who were married in Berlin the

other day after an engagement of fifty years must have had a good time for half a century. We tender them our congratulations.

ARE SPRIGHTLY THOUGH OLD.

Mrs. Marion Smith and Frank Simons were married at Green Bay on the 14th. He is 73 years old while the bride's age is 68 years.

Mrs. M. La Rose, 99 years of age, in Seymour, has cut four new teeth, and is also receiving a head of new hair.

Mrs. Sarah Longfield, 68 years old, of Madison, mistook a cellar door for a bedroom door, and fell to the cellar floor. She suffered a broken arm, and severe cuts and bruises about the head and face, but is rapidly recovering.

TAKING TIME FROM THE STARS.

How "Cambridge Time" Is Secured in the Observatory at Harvard.

No timepiece is perfect, and there are no means on earth of keeping perfect time. The stars, however, furnish the necessary means. At the observatory in Cambridge there are two principal clocks employed in keeping the standard time—the standard mean time clock, which telegraphs its signals over the surrounding country, and the normal sidereal clock, which is the main standard of the observatory, to which everything is referred. The sidereal clock, as its name implies, keeps sidereal or star time, which gains about three minutes and fifty-eight seconds per day over mean solar time, with which we are all familiar.

The clock is of the finest workmanship and is kept in a brick vault, underneath the observatory, where the temperature is as nearly constant as possible. Every effort is made to protect it from any influence which might affect its "rate," or in other words, the amount of its gain or loss per day. This is necessary in order that the "rate" may be depended upon to give the correct time during spells of cloudy weather, when no observations can be made.

On every clear morning the error of this clock is carefully determined by observing certain bright stars with an instrument known as the meridian circle.

This instrument consists of a telescope mounted on trunnions like a cannon and supported by a pier of solid masonry. It is so arranged that it can be directed toward any point on the meridian, but cannot be pointed away from the meridian line. On looking into the eye-piece of this telescope one sees a series of fine parallel lines running north and south across the field of view, the middle line marking the meridian.

When time observation is to be made the observer first selects a suitable star from a printed star list, which gives the exact time at which each of the principal stars crosses the meridian. He then sets the telescope at the proper point on the meridian to intercept the star, and putting his eye to the eye-piece, waits for the star to appear.

As the star crosses each of the lines mentioned he presses an electric key which he holds in his hand. The signals thus given are recorded electrically on a registering instrument called a chronograph, on which are also being recorded the seconds of the sidereal clock. The chronograph consists of a cylinder made to revolve by clock work at the rate of about once a minute.

A paper, wrapped around this cylinder, receives the record traced by a pen, which is connected by an electro magnet in such a manner that any signal made either by the operator or the clock, causes the pen to make a mark on the paper.

By examining this paper the observer is able to tell within a tenth of a second the time which the normal clock indicated when the star crossed the meridian.

Comparing this with the time taken from the star list shows the error of the clock. A comparison is then made between the sidereal and mean time clocks, which, after allowing for the difference between mean and sidereal time, shows the error of the mean time clock.

If the clock is slow a slight weight is placed on the top of the pendulum bob, which causes the clock to gain slightly. If, on the other hand, the clock is found to be fast a corresponding weight is removed, making the clock lose slowly. In this way the standard signals are kept within a few tenths of a second of the correct time.

—Youth's Companion.

He Made a Big Mistake.

A few days ago a man raised his hat to a lady in a prominent retail store. The lady stared at him for his impudence and turned her head. His face flushed, and after hesitating a moment he went up to her and said: "You really must excuse me, madam, for I mistook you for a lady whom I met but once a short time ago. I saw my mistake at once, but still there is a very great resemblance. Her name is Mrs. ——."

Comparing this with the time taken from the star list shows the error of the clock. A comparison is then made between the sidereal and mean time clocks, which, after allowing for the difference between mean and sidereal time, shows the error of the mean time clock.

And no wonder. These figures tell the story.

Beloit District—23,965 population.

Janesville district—19,494 population.

Milton district—17,287 population.

Evansville district—10,334 population.

Beloit feels the injustice of the apportionment in her own case, while Janesville people see it most when they look about them. But even this is enough. The manifest unfairness of compelling Rock county towns to pool issues with towns in Walworth, to move, say, through a pair of Walworth assembly men in securing Rock county legislation, is such that strong words are needed to fully describe it.

"Begin with what is the gerrymander in the first district," says the Beloit Free Press in an exhaustive review of the case. "This district is composed of the towns of Janesville, with a population of 926; Rock, 976; Harmony, 1083; La Prairie, 836; Johnston, 1034; Bradford, 849; Fulton, 1363; Janesville city, 10,836; Edgerton, 1595. Total population, 19,494."

"Now look at the Second District, and when looking at it try to realize if you can how very small and insignificant the inhabitants of the First District must have appeared in the eyes of the democracy who fashioned the gerrymander in comparison with the yeomanry of the Second District. The following towns with their population comprise the Second: Porter, 1235; Union, 950; Magnolia, 1098; Center, 1073; Spring Valley, 1422; Plymouth, 1188; Avon, 806; Newark, 1039; Evansville, 1523. Total, 10,334."

First District—19,494. Second District, 10,334. Nineteen thousand people in and about Janesville are only equal to ten thousand in and about Evansville when it comes to legislative representation.

"But if this is a democratic 'dandy' compare the second with the district into which Beloit, town of Beloit, Turke and Clinton are merged, and then you will see a veritable democratic 'daisy.'"

"Here's the Beloit district—it hasn't even a number that we can find: Walworth county towns—Darien, 1,434; Delavan, 2499; Geneva, 963; Lyons, 1328; Sharon, 2038; Lima, 854; Walworth, 1372; Bloomfield, 1197; Lake Geneva, 2297; Rock county—Clinton, 1105; Turtle, 933; Beloit, 714; City of Beloit, 6315. Total, 23,965."

"Just look at it, you miserable, low down, disfranchised people of the no-number district and get a realizing sense of your insignificance in the eyes of the democratic yahoos into whose hands was committed the affairs of state by a mysterious, very mysterious dispensation of Providence. The people of this district, whichever it is, as represented hereafter in the assembly, will cut a very small figure. No a second district man can look down on us, swelled up as he will be to twice and a third the size of our man!"

10,334 equal to 23,965! Do you begin to see the monstrosity of it? Do you begin to see that either 13,000 of the people of this district are disfranchised, or that the 10,000 of the Second district have been given excessive representation? Do you begin to realize what a democratic gerrymander—a democratic infamous outrage—really is?

But this isn't all, for Milton and Lima—good old reliable republican Milton and Lima—are not yet accounted for. They are not retained in a Rock county district as it would be supposed they would be when the size of the Second district is remembered. Not much. To do that would spoil the whole democratic scheme for this country. On the contrary these two important towns are made the tail of a district composed, with these two exceptions, exclusively of Walworth county towns. Here is the district: Whitewater, 849; La Grange, 844; Troy, 972; East Troy, 6406; Richmond, 799; Sugar Creek, 1004; La Fayette, 933; Spring Prairie, 1155; Elkhorn, 1557; village of White-water, 4,359; Milton, 2,300; Lima, 1109. Total population, 17,287.

That's where Milton and Lima have gone to. The cross-eyed fellows who were cutting up Rock county into slices to suit themselves couldn't see how much easier it was to put Fulton and Edgerton over to the Second district and put Milton and Lima in the First and thus equalize the respective populations in a greater degree. Not much. They wouldn't see anything that would spoil their dishonest scheme, which was to carve out a democratic district in Rock county. But this dirty work, all this disreputable representation, all these inequalities, all this political outrage, was perpetrated simply and solely to make, if possible, a sure democratic assembly district in Rock county.

"Lovely," isn't it—the whole business!

The Beloit District exceeds the First in population by 4,417; the Milton District by 6,678, and the Second by 13,631—or twice-and-a-third times as many.

That's what Wisconsin democracy will do when it has the power.

"And yet, in the face of these infamous inequalities of representation to secure political advantage, democratic editors sneeringly advise republicans to 'take their medicine without whining.' They don't use the right word. Republicans are not 'whining.' They are puking from an overdose of nauseous stuff that turns the stomach of every decent man in the state of Wisconsin, and the reaction from which will knock out all democratic control of state affairs for the next quarter of a century."

CLOSED WITH A BIG HOUSE.

The Janesville Theatrical Season Ended by "The County Fair."

"The County Fair," which amused a large audience at the Myers' Saturday evening: is almost everything that is claimed for it. Typical of the rural life of New England it probably took

many of the audience back in their fancy to the scenes of childhood, and where it failed to inspire such recollections its vein of comedy came to the rescue and kept other people laughing a good share of the time. The play is well built and the race scene which is brought in very consistently furnishes a fitting climax.

THREE WHO MUST SUFFER.

Leg Fractured by a Kick.

George Flagg, a young man employed on the C. T. Wilcox farm south of the city, entered the barn Saturday night to care for his horses. A horse was already in the barn feeding when he entered, and without speaking to the animal he caught hold of his tail and began removing the harness. The result was a quick kick, which caught the young man just below the knee, resulting in a badly broken leg.

BADLY HURT BY A FALL.

The seven-year-old son of John Kohler, Center avenue, sustained severe injuries Saturday afternoon from a fall while playing in the barn. The doctor, whose efforts to discover Chapin's identity have been untiring, has very evidently stricken a clue to something. At 4:30 o'clock no further particulars were received.

Yesterday Chapin talked incessantly. He made some wild and startling statements which may be the truth or may be the wanderings of a dazed mind.

William Canary's Ribs Broken. William Canary met with an accident on Saturday by falling, breaking three of his ribs.

WANT LIGHTS ALL NIGHT.

Alderman Makes Suggestions Regarding Changes of Plan.

Several of the aldermen, while in favor of having more light in the business part of the city, favor receiving propositions from both the arc and the incandescent electric light companies, as well as from the gas company. Alderman Childs thinks the outskirts of the city can be better and cheaper illuminated by the incandescent light than by the old oil lamps now in use.

At any event the council will probably insist on lighting the city all night, whatever mode be adopted. This will add much to the light expense, and may be the means of curtailing somewhat the number of lights in order to bring the expense within the limits of the fund, which is now \$7,500.

CUT THE SAND BAR AWAY.

Bed of the River Much Changed at Milwaukee Street.

A few years ago there was a sand bar between the Myers building and the Griffith's building on the south side of Milwaukee street bridge, which in low water showed itself above the water surface. Saturday the pile driving crew found the sand bar had been cut away by the deflected current and where they expected to find shallow water, they found a hole fifteen feet deep, which accounts for the short pile now seen in the third row from the west bank.

ATE BERRIES BY THE BUSHEL.

Seven Big Farm Baskets Tempted Sunday Appetite.

Any quantity of strawberries were sold Saturday. Tarrant & Osgood, disposed of twenty-one bushels and one peck, all being sold by the box, no sale being larger than eight boxes to one customer, and only one taking that number. The most being sold in two and three box lots. It is estimated that fully seventy bushels of strawberries were sold in the city on Saturday.

NO GLANDERS IN TOWN.

Doctors Pronounce Janesville Free From the Scourge.

CAREFUL investigation disproves the street rumor that glanders have appeared in Janesville stables. The stories were started about a week ago, and were traced to the street car barns, where a horse had the influenza. This horse has recovered, and was put at work on the cars this morning. There are no signs of the dread disease in the city, and have not been for some time—a year or more.

TOLD IN TWO LINES.

PATRICK party at the Armory to-night.

The steamboats did a good business yesterday.

BUILDING association dues are payable today or this evening.

The County Fair Company left for Madison at 9:15 last evening.

Dr. G. C. CAITTENDEN and sister Millie, have returned from a ten days' trip.

Inquiries sent to all three men had not been answered at 4:30 this afternoon.

COLD HURT THE PLANT BEDS.

Tobacco Men Fear It Has Put Back The Setting Season.

The cold, dry weather of the past week had its effect on the plant beds throughout the tobacco growing belt, and the plants made little growth, which is not probable. Farmers who have completed planting corn are now putting their tobacco land in condition.

ales of seed leaf reported by J. S. Gans' Son tobacco broker, New York for week ending May 18, 1891, are:

120 cases, crop of 1889, Pennsylvania Seed, at 12½ to 15¢.

400 cases, 1889, Pennsylvania Seed, at 12½ to 15 cents.

25 cases, crop of 1889, Pennsylvania Havana, at 13 to 28 cents.

30 cases, crop of 1889, Wisconsin, at 7 to 12 cents.

100 cases, crop of 1889, State Havana, at 14 to 28 cents.

60 cases, crop of 1889, New England Havana, at 18 to 32 cents.

100 cases, crop of 1888, Sundries, at 7 to 35 cents.

Total cases, 1,390.

ONLY A BOY, BUT OLD IN SIN.

Lewis Egan, a hardened Beloit youth Lodged in Jail.

Lewis Egan, a Beloit youth, is in jail, and will stay there for forty-five days. Egan stole a watch from a companion and was arrested by Officer Webb. Egan is a hardened youngster, he having served a previous sentence in the Rock County jail.

MEMORIAL DAY MEETING.

Mayor St. John Calls a Public Gathering for Next Tuesday Evening.

A meeting of citizens is hereby called at the common council chamber Tuesday evening, May 19, at 8 o'clock, to take such action as is deemed best in relation to Memorial day. J. W. St. John, Mayor.

CIRCUS FOR DR. ROBERTSON.

The Cactus Oil Disseminator May Start a Show.

Dr. F. O. Robertson is talking of starting a circus. He insists that there is money in it and is considering the cost of an outfit.

STRENGTH AND HEALTH.

If you are not feeling strong and healthy, try Electric Bitters. If "La Grippe" has left you weak and weary use Electric Bitters. This remedy acts directly on Liver, Stomach and Kidneys, gently aiding those organs to perform their functions. If you are afflicted with sick headache, you will find speedy and permanent relief by taking Electric Bitters. One trial will convince you that this is the remedy you need. Large bottles only 50 cents, at drugstore.

CLOSED WITH A BIG HOUSE.

"The County Fair," which amused a large audience at the Myers' Saturday evening: is almost everything that is claimed for it. Typical of the rural life of New England it probably took

HAVE THEY A CLUE?

Inquiries In Chicago Delay E. J. Chapin's Commitment.

HE RAVES OF STRANGE THINGS.

The Intimation is Given By His Talk That His Insanity Resulted From a Blow—Robbery Theories Once More Advanced in Explanation,

MANY CASES PUT OVER.
Thirty-Five Suits Brought Before Judge Bennett To-Day.

Judge John R. Bennett held a levee this morning and disposed of thirty-five cases before noon. The cases of Reed et al against Reed, Merchants & Mechanics bank against Smith; Whittaker et al vs Northrup et al; Ward against Bullard defendant, Covell garnishee; Ford et al against Smith; Edgerton Tobacco Manufacturing Company against Hayner, defendant, Gates garnishee; estate of Lelia M. Shuman; Paul against Greenman defendant, Morris garnishee; Gates et al against Greenman defendant, Michigan garnishee; Gates et al against Greenman defendant, Morris garnishee, and Cox et al against Greenman, were continued for the term.

In the case of Edwards et al against Borden, the venue was changed to Waukesha.

The case of the Pierce, Butler & Pierce Manufacturing Company against Pond, was set for trial May 22, at 9 o'clock.

The case of Acer, receiver, etc., against Smith et al, was set for May 21, at 9 o'clock.

The case of the state ex. rel. Pomeroy against the town board of Fulton, was continued and the plaintiff was given leave to apply within twenty days for a writ of mandamus.

The cases of the Champayne Lumber Company against the North Division Lumber Company; Champayne Lumber Company defendant; Beloit Straw Board Company garnishee; Champayne Lumber Company against Barrett Manufacturing Company et al; Champayne Lumber Company against North Division Lumber Company; Barrett Manufacturing Company defendant, Jennings Trust Company et al; Champayne Lumber Company against North Division Lumber Company; Barrett Manufacturing Company garnishee, were continued until July 5 at 9 o'clock.

The case of Holleran against McDermott et al, and Holleran against McDermott was set for May 25.

Cornwall against Soper was set for May 25.

Hatch against Huntress was set for Thursday morning at 9 o'clock, as was also the case of Clough.

The case of Coulter et al against Coulter et al, was set for Wednesday morning.

THREW STICKNEY FROM A BUGGY.

Sunday Morning Runaway on West Milwaukee Street.

A runaway on Milwaukee street Sunday morning, resulted in partly wrecking one of the buggies and throwing one of the occupants heavily to the ground. W. J. Mosher was out with a buggy delivering his papers. His bridle slipped from the horse's mouth over on West Milwaukee, and the animal came down the street at a lively pace, the driver pulling on the lines with little effect. At the Rock County National bank it struck a buggy driven by Al Stickney, turning the buggy in such a manner as to throw Mr. Stickney heavily to the ground. Stickney's horse turned suddenly around, and ran down Main street, being captured at the lower brewery, the buggy being uninjured. Mosher's horse was captured at the Highland house barns, there being no material damage to the horse or buggy. Mr. Stickney escaped almost unharmed in spite of his fall.

Chapin claims that he came from Milwaukee to Janesville.

I stopped at the American House in Milwaukee," he said. "The man that hotel is a nice fellow. I came to Janesville on the 5:52 train on the Chicago, Milwaukee & St. Paul Railroad Tuesday evening."

Then his mind wandered again, and he talked in an insane way about a girl who had her hand cut off.

"Ugh!" he exclaimed with a frightened start.

"The blood; her blood spurted all over me! Oh! it was awful!" Yesterday afternoon E. B. Heimstreet called on Chapin, and while talking with him asked him if he wanted to smoke.

"I don't smoke," replied Chapin, "but you seem to be a good man. What is your name?"

"My name is Heimstreet."

"Heimstreet the druggist?" asked Chapin with evident interest.

"Mr. Heimstreet I know you are a good man; will you give me a chew of tobacco? Chewing is a bad habit and was put at work on the cars this morning. There are no signs of the dread disease in the city, and have not been for some time—a year or more."

During talking with J. W. Bates yesterday, Chapin said that he knew several firms in Chicago.

"I know Berry & Company the horse buyers," he said. "The old Mr. Berry boards at the Sherman House. I know John Cashman too. He sells boots and shoes in his store. I know Fred Corle. He keeps a livery stable, and I don't know any of their addresses, but Corle's number is somewhere in the sixties."

While talking with J. W. Bates yesterday, Chapin said that he knew several firms in Chicago.

The steamboats did a good business yesterday.

BUILDING association dues are payable today or this evening.

The board of education, at the city clerk's office, special meeting.

Washington camp No. 1, Patriotic Order Sons of America, at Liberty hall

New Men Own the Myers.

Miller & Paddock have assumed the management of the Myers House, and the improvements are well under way.

Both Mr. Miller and Mr. Paddock are experienced hotel men, and will give the Myers patrons the best there is to be had. Frank Davidson, the clerk, will be retained by the new firm. Frank is a very obliging and courteous gentleman, and has made many friends in Janesville who will be pleased to know that he will remain.

Street Cars Were Busy.

The street cars had more than they could attend to yesterday on the cemetery line. The cars were loaded down, and scores of people were compelled to take the
